

HB 433 -- Meat Processor Inspections

Sponsor: Korman

Currently, the Department of Agriculture and the Department of Health and Senior Services are authorized to conduct specified inspections and analyses in regard to food safety. This bill prohibits the Department of Health and Senior Services or its duly authorized agent from inspecting an establishment in which livestock or poultry are slaughtered or in which meat or meat products are prepared for or capable of use for human consumption for any criteria already under inspection by the Department of Agriculture or under federal inspection.
